PROFESSIONAL SUMMARY

Full-Stack Developer with 5 years of professional experience, including 3.5 years in web development using Python, Django, Django REST Framework, and React.js. Skilled in building scalable web applications, REST APIs, and responsive user interfaces, with practical experience delivering real-world projects including an AI assistant, a salon booking platform, and a full e-commerce solution. Hands-on with AI tools, prompt engineering, MCP (Model Context Protocol), and Claude Code CLI, with experience integrating AI models into production applications. Skilled in UI/UX prototyping with Figma. Strong analytical thinking, problem-solving, and cross-functional collaboration skills. Canadian Permanent Resident based in Toronto, open to new Full-Stack Developer opportunities.

TECHNICAL SKILLS

- Backend: Python, Django, Django REST Framework (DRF)
- Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
- AI & Automation: Prompt Engineering, AI Chatbot Workflows, Ollama, Gemma 3.4B, Claude Code CLI, MCP (Model Context Protocol)
- Design: Figma (UI/UX Prototyping)
- Database: SQLite, MySQL, Django ORM
- Tools & APIs: REST APIs, Postman, Git, GitHub
- Deployment: Render, Netlify, Vercel
- Platforms: Microsoft 365 (Word, Excel, Teams, Outlook)
- IDEs: VS Code, PyCharm, Jupyter Notebook

PROFESSIONAL EXPERIENCE

Full-Stack Developer – DoDAO

Jan 2025 – Present

London, Ontario, Canada

- Worked on full-stack web applications using Django and React.js in an AI-focused product environment
- Built REST APIs for frontend integration and internal services
- Developed responsive UI components using Tailwind CSS and Bootstrap
- Contributed to feature development in AI-assisted workflows and automation modules
- Handled debugging, deployment, testing, and maintenance of applications
- Collaborated with team members to deliver product requirements in an AI-based startup environment

Web Developer – Blindwink Pvt. Ltd.

Mar 2023 – Jan 2025

Bangalore, India

- Developed and maintained web applications using Django, HTML, CSS, and JavaScript
- Created dynamic Django templates and optimized SQLite/MySQL database operations
- Worked on backend logic, API handling, debugging, and application improvements
- Collaborated with team members to resolve issues and deliver responsive web solutions
- Participated in requirement discussions and translated business needs into technical implementations

Networking Consulting Engineer – Aryaka Networks

Mar 2019 – Jan 2020

Bangalore, India

- Configured IPSEC tunnels and supported MPLS migration activities
- Worked with engineering and operations teams for issue resolution and network enhancements
- Monitored alerts, handled escalations, and provided technical support

Service Desk Engineer – Vodafone

Sep 2018 – Mar 2019

Toronto, Canada | Canadian Permanent Resident

- Provided L1 technical support and ticket resolution
- Coordinated with teams to ensure service delivery and issue tracking

PROJECTS

AIVA – Local AI Assistant

- Built a local AI chatbot using Python, Django backend, and React frontend
- Integrated Gemma 3.4B model using Ollama for local AI responses
- Worked on prompt testing and response improvement for better conversational experience
- Designed an interactive chat interface with real-time responses
- Implemented context handling to maintain conversation flow across multiple user queries
- Optimized backend API calls to reduce response latency for a smoother chat experience

GlamourHaven – Full-Stack Salon Booking Platform

- Built a booking platform with React frontend and Django REST backend
- Implemented user authentication, booking management, and admin dashboard
- Integrated REST APIs and WhatsApp notifications using Twilio
- Designed responsive UI for mobile and desktop devices
- Integrated an AI-powered chatbot to handle customer queries and assist with real-time appointment bookings
- Built dynamic service and staff management features, allowing admins to update offerings and availability

Creamy – Django-Powered Ice Cream E-commerce Website

- Developed a full-stack e-commerce platform using Django, HTML/CSS/JavaScript, and Bootstrap
- Implemented user authentication, shopping cart, and order management with REST API integration
- Designed a responsive, user-friendly interface for desktop and mobile
- Integrated PayPal Sandbox for secure checkout and payment testing
- Built an admin dashboard for managing products, inventory, and order status updates
- Implemented order history and email notifications to keep customers updated post-checkout

EDUCATION & CERTIFICATIONS

- What Is Copilot? An Overview of Microsoft's AI Tools – LinkedIn, Issued May 2026
- Google Prompting Essentials Specialization – Google, Issued May 2026
- Generative AI: Prompt Engineering Basics – IBM, Issued May 2026
- React JS Certification – Scaler, 2025
- CS50's Introduction to Programming with Python – HarvardX CS50P, 2022
- The Complete Python Bootcamp – Udemy, 2022
- CCNP – Cisco Certified Network Professional, 2017
- CCNA – Cisco Certified Network Associate, 2016
- M.Sc. (IT) – Punjab Technical University, 2014
- Bachelor of Arts – Punjab University, 2011
